RELEASE NUMBER 2010.6.1

Orthodox Web Solutions (http://orthodoxws.com/) and webmaster, Father John Parsells, provide professional Internet web-development and web-management services for the diocese. As mentioned in a previous release from our office, we hope to offer helpful assistance, guidance and information to parishes desiring to use or enhance their outreach via the Internet. We believe Father Parsells and **Orthodox Web Solutions** offer an avenue that is proven, effective, and affordable to develop and manage an Orthodox parish website. While other alternative approaches are available, this is one resource that is worthy of attention and consideration.

Father Parsells has made a special offer to the parishes of our diocese. In it, he states:

> "In honor of the consecration of His Grace, Bishop Michael, and in an effort to help the Diocese of New York and New Jersey fulfill the mandate to share the Gospel, Orthodox Web Solutions would like to offer all parishes and institutions of the diocese seeking to get online or upgrade their website:
>
> **free website setup and hosting through September 1, 2010**
>
> This is a savings of $200 (standard setup is normally $125 hosting for a three month period is $75). Thereafter, the only charge would be the normal rate of $25 per month, which covers hosting, domain registration, email, mailing lists, etc..
>
> Orthodox Web Solutions was launched in 2003 by Father John Parsells, who at that time was a seminarian from the Diocese of New York and New Jersey at Saint Tikhon's Seminary studying under (then) Father Michael Dahulich. This promotion is being offered in thanksgiving to God for the personal example and guidance of Bishop Michael, as well as the support Father John has received from the clergy and faithful of the diocese.

For more information on **Orthodox Web Solutions** services, please see their website;
